

My son is profoundly deaf and I also use captioning because of some hearing loss. I can understand why churches may request waivers, but I disagree with providing waivers when a church can pay significant costs to produce tapes or tv programs and complain about a few hundred dollars of additional costs. Handicapped and old age individuals with a hearing loss all are valid users of the public airways. They can not use it without captioning. If they can afford to spend thousands of dollars on a production, then the organization should be required to do captioning over public air ways.
