

I want access to televised information and entertainment, just like everyone else. Closed captions make this program accessible to me who likes hunting and fishing. My family and friends who are deaf or hard of hearing also like to fish and hunt. Closed captioning is an essential part of any television program.

They should be AWARE of this federal requirement when they produced this show and incorporate this additional cost to caption each episode. Today, closed captions are not too expensive nor too difficult to caption. There are couple of captioners right here in Kentucky who could provide such services.

Please do not provide a waiver to this group.

Sincerely,
