Re: Docket # 07-16

Dear Secretary Dortch,

Internet marketing and sales are a major part of this country's economy. In just one quarter, over \$26 billion can be made through internet retail sales. More Americans are taking advantage of the products and variety available on-line.

The sales made through e-commerce can increase if more people are connected to a fast broadband internet network. Today however, over 100 million adults are not using broadband. To change this, M2Z Networks is proposing to make broadband free to anyone with access to a modem.

If the FCC approves this proposal, the economy as a whole will benefit. Increasing on-line sales, helping small businesses and meeting consumer demands make the economy more competitive. I ask you work to make this proposal a reality.

Sincerely,

R. Lee Currie, Jr.

Washington, DC 20554

Dear Madame Secretary,

I write to you today to ask that you support a proposed service which would provide fast, free, family-friendly wireless broadband internet access to all Americans. This service is necessary in the high-tech, online world we live in today and it is crucial to have the skills and knowledge gained by access in order to be successful.

Individuals will certainly benefit from this service but so will entire communities and states. Each community which will be able to offer this free service will surely see economic growth and development. Small and independent businesses previously unable to afford internet access will now have the access they need to participate fully in e-commerce. Rural cities and towns not able to be connected will be able to because of the wireless service provided which will reach out to the outside locations.

It is my responsibility as a citizen to stand up for opportunities which would benefit my country. This is certainly an opportunity which all citizens would benefit and I urge you to take a support M2Z's proposal in Docket # 07-16 to provide fast, free, family-friendly wireless broadband internet access.

Sincerely,

A handwritten signature in cursive script that reads "Wendy Rouse Jackson".

Re: Docket # 07-16

Dear Madame Secretary,

Many communities, both rural and urban, are facing technological challenges which need to be addressed immediately. I understand that the FCC is reviewing a proposal to provide fast, free and family-friendly wireless broadband internet access to all Americans.

This proposal, if approved, would not only help these communities as a whole, but it would help each citizen fully access our economy, government services and media outlets. Our communities and citizens deserve free access to wireless broadband internet service.

This proposal is an amazing opportunity to give our citizens the access and support they need to compete for jobs and have a voice in community, state and national issues, contributing to the country's economy and strength. Please consider the many benefits of the proposal to bring fast, free and family-friendly wireless broadband internet access to all Americans. Thank you.

Sincerely,

Craig Collins
