Re: 911 Compliance Status Report – WC Docket No. 05-196

Dear Ms. Dortch:

I am providing this response to a letter from Kathy Berthot, Chief, Spectrum Enforcement Division of the Commission's Enforcement Bureau, dated March 12, 2007, addressed to Netifice Communications, Inc. In 2006, Netifice changed its name to MegaPath Inc. ("MegaPath"). MegaPath hereby provides an updated report detailing its current 911 compliance status in accordance with the rules adopted by the Commission in its *VoIP 911 Order*.

Since the inception of its commercially-offered VoIP service, which began after its November 28, 2005 report to the Commission, Megapath has only marketed and accepted new customers in areas where it believes it is capable of compliance with the requirements of the *VoIP 911 Order*. Accordingly, MegaPath believes that it is able to provide 911 services to 100% of its customers in accordance with the rules established in the *VoIP 911 Order*. However, because MegaPath is a reseller, in some instances there are temporary delays in its ability to confirm location information necessary to initiate direct access to the appropriate PSAP. At present, 94.5% of MegaPath's VoIP lines will transmit 911 calls to the appropriate Public Service Answering Point (PSAP) in compliance with Paragraph 42 of the VoIP 911 Order. An additional 3.3% of its lines will do so within approximately 7-10 days from the date of this letter. MegaPath is currently working to resolve direct PSAP access for the remaining 2.2% of its lines, associated with two customer locations.

If you have further questions or require assistance please contact me.

Respectfully submitted,

A handwritten signature in red ink, appearing to read "Steve Chisholm".
