

April 17, 2007

Marlene H. Dortch, Secretary
Federal Communications Commission
Office of the Secretary
445 12th Street, SW
Washington, DC 20554

Re: WT Docket 96-86

Dear Ms. Dortch:

Pursuant to Section 1.1206(b)(2) of the Commission's Rules, this is to notify you that on April 16, 2007, Michael Senkowski of Wiley, Rein and the undersigned had meetings with Bruce Gottlieb, Legal Advisor to Commissioner Capps and Evan Kwerel and John Williams of the Office of Strategic Planning & Policy Analysis regarding the above captioned proceeding.

During the meetings we discussed the attached presentation describing the benefits of rearranging the public safety portions of the 700 MHz band to more efficiently accommodate broadband technologies, but did not take a position on specific plans that extend beyond the public safety portion of the band. We also discussed certain advantages of wideband technologies and the importance of allowing flexibility to deploy those technologies. Motorola strongly supports the position of the Association of Public-Safety Communications Officials (APCO), International Association of Chiefs of Police (IACP), National Sheriffs Association (NSA), Major Cities Chiefs Association (MCCA), and Major County Sheriffs Association (MCSA) that the Commission should not adopt a ruling that would preclude future wideband data operations in the 700 MHz band.

Pursuant to the Commission's Rules, one copy of this notice is being filed electronically with the Commission. If you require any additional information please contact the undersigned at (202) 371-6953.

Sincerely,

/s/ Steve B. Sharkey

Steve B. Sharkey, Director
Director, Spectrum and Standards Strategy
