Re: Appeal of Denied E-rate Funding
CC Docket No. 02-6
Request for Waiver

Dear Sirs:

We just received notification from the USAC that our appeal of their denial of funding of two of our Funding Requests for the 2005-2006 funding year was denied. The following is the relevant information needed for this Request for Waiver.

Billed Entity Name	Casa Grande Elementary School District #4
Billed Entity Application Number	142922
Form 471 Application Number	514172
Funding Request Numbers (FRN's)	1417933, 1423980 and 1424118
Form 471 Application Number	512170
Funding Request Numbers (FRN's)	1413868

Both of our 471 applications and all of the FRN's related to the 471's noted above were denied for the same reason; therefore, the basis for our request for waiver is the same for both 471's and all FRN's. The USAC stated correctly that we did not indicate that our technology plan was completed prior to the submission of the 470 referenced on the two 471's that we filed (see attached letters from the district outlining our appeal and the USAC's determination).

Basis for Reauest for Waiver

When we were applying for the E-rate discounts during the fall and winter of 2005, we planned on using a district RFP process for the goods-and services that we would request because we were led to believe that the State of Arizona – Department of Administration's (State's) state-wide contracts for technology and technology-related services would not be ready in time to comply with the SLC filing deadlines. After a significant period of time that we took to determine our district needs, which took extensive consideration of our techonolgy plan, our form 470 numbered #546530000568543 was submitted on December 22, 2005. On the 470 application, we noted completion of our technology plan on November 30, 2005.

The basis for our requested services on our two 471 forms noted above and the related FRN's (submitted in February) were fundamentally based on our technology plan and the information on the district's form 470 even though we referenced the State's 470 when we submitted our 471. When we learned that the State's state-wide contracts were awarded on January 13, 2006, based on their 470, and the award included everything that was contemplated on our form 470, we chose to use the State's 470 as the basis for the submission of our 471. This decision was made because we knew that the State had already done a thorough job of evaluating the contracts and, moreover, they would have been able to generate the same and most likely better discounts than a single school district is able to generate because the scope of their RFP is much larger than a single district.

In this circumstance, I believe that our district's decision to use the State's 470 as the basis for the submission of our 471 does serve the public interest, even though the date of the State's submission of their 470 was before our stated completion of our technology plan, for the following reason. The rationale for the rule related to timing of the completion of the technology plan before a school or library can submit a 470 or 471 is to ensure that the entity's technology plan was appropriately and thoroughly considered before the entity requests proposals for discounts from providers. I believe we have completely met that test. As I stated earlier, we thoroughly considered our technology plan before we created the form 470 that we submitted. The products and services that were included on the State's 470 included everything that was included on

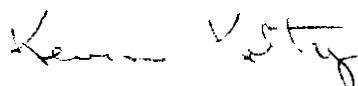

Letter to FCC
Page 3
February 15, 2007

our 470. Therefore, even though we “technically” did not have a totally completed technology plan prior to the State’s submission of their 470, we thoroughly considered our technology plan prior to our 470 and it was only after we determined that the products and services on the State’s 470 included everything contemplated on our 470 that we chose to use the State’s form 470. Given the lateness of the State’s award and the quick decision making that needed to occur, the rule about the timing of the submission of the 470, in this case the State’s, in relation to the district’s technology plan was unfortunately overlooked, not ignored purposefully. Also, given the late timing of the State’s award, there was no way that this could have been avoided since our district did not have control over the timing of the State’s 470 process or contract awards. I believe that our decision, while not intentionally ignoring a timing rule, most likely saved both the district and the E-rate program significant money without compromising the reason for the timing rule.

I can provide any further information to the FCC reviewers related to this appeal if needed. I encourage you to consider that we did follow the entire spirit of the rules of the USAC even though we unintentionally did not meet the specific form of the rules.

Thank you for your consideration.

Sincerely,

Kevin Kelty

REASON FOR APPEAL:

The Casa Grande Elementary School District had a complete technology plan prior to the submission of the Forms 470 and 471 for the 2006 funding year. The district's technology plan, including all five of the required elements, was completed by November 30th, 2005. This is well in advance to the districts submission of a Form 470 on December 22nd, 2005 and the Form 471 on February 15th, 2006. Please note that after the state contracts were announced, the district decided to select vendors through the Arizona Department of Administration, so no bids were accepted/reviewed as a result of our Form 470 submission.

Our technology plan was submitted for approval by the Arizona Department of Education on February 2nd, 2006 and was subsequently approved on February 24th, 2006 (see Insert #1). In addition, the Casa Grande Elementary School District Governing Board approved the plan at their monthly meeting on February 14th, 2006 (see Insert #2). This is well in advance to the start date for any services the district might receive.

This information was provided as a part of Selective Review Case #SR-2006-142922 received on June 23, 2006 and again was reiterated in our response to follow-up questions dated 7/10/06 (Jessica Olsen was our reviewer). My understanding is that technology plans must be complete prior to submitting a Form 470 or 471, which the district did. My understanding is also that they must be approved prior to any receipt of services, a requirement that was also met. Since the Casa Grande Elementary School District met both those requirements, we are asking for a reconsideration of the funding commitment decision letter.

Thanks for your consideration of this matter

Sincerely,

Marilyn Gardner

Name of Entity: Casa Grande Elementary School District #4
Plan Approval Expires June 30, 2009
Pursuant to the requirements of the FCC's E-rate program under the Schools and Libraries
Universal Service Support Mechanism

Dear Marilyn Gardner:

Thank you for providing a copy of your institution's technology plan for review pursuant to the requirements of the Schools and Libraries Universal Services support mechanism (commonly known as "E-Rate") program, and the Enhancing Education through Technology Program (EETT) Title IID.

The technology plan you provided appears to include all the basic planning components required under the E-Rate program as set forth by the Federal Communications Commission (FCC), reference <http://www.sl.universalservice.org/apply/step2.asp#3>. As such, you may consider receipt of this letter as confirmation that your technology plan has been approved by an "authorized organization" as required. This certification applies only to the approval of this technology planning document for purposes of your E-Rate and EETT Title IID application.

Although the basic structure of your technology plan has been approved, you are reminded that E-Rate rules require a level of consistency between technology plans and E-Rate funding requests that was not subject to review under our approval process. Please read the latest developments regarding technology plan requirements at the above link to remain compliant of changes to the program requirements.

Developing a comprehensive technology plan, based on the educational goals of the school system, will ensure that the most appropriate technologies are effectively infused in your instructional and/or administrative programs. Thorough planning also ensures that all parties have equitable access and achieve the greatest benefit from routine use of educational technology. The comprehensive technology plan should demonstrate clear targets for technology use, spell out desired goals for learners, create visions for future directions, build "buy-in" from stakeholders, and demonstrate to those who might provide funding that a district or charter holder is ready to act.

School Districts, Consortia or Charter Schools (LEAs) who apply for technology funding through any Federal grant program, are required to have developed a comprehensive, three-year to five-year plan, which outlines how the agency intends to utilize and integrate educational technology.

Re: Applicant Name: CASA GRANDE ELEM SCHOOL DIST 4
Billed Entity Number: 142922
Form 471 Application Number: 514172
Funding Request Number(s): 1417933, 1423980, 1424118
Your Correspondence Dated: November 09, 2006

After thorough review and investigation of all relevant facts, the Schools and Libraries Division (SLD) of the Universal Service Administrative Company (USAC) has made its decision in regard to your appeal of USAC's Funding Year 2006 Funding Commitment Decision Letter for the Application Number indicated above. This letter explains the basis of USAC's decision. The date of this letter begins the 60 day time period for appealing this decision to the Federal Communications Commission (FCC). If your Letter of Appeal included more than one Application Number, please note that you will receive a separate letter for each application.

Funding Request Number(s): 1417933, 1423980, 1424118

Decision on Appeal: **Denied**

Explanation:

- After thorough review of the appeal, the relevant facts, and documentation, it was determined that USAC's decision to deny the funding requests was correct. During the Selective Review, you were asked to provide the creation date for the year 2006-2009 technology plan submitted in response to the initial SRIR fax request. In the response dated July 13, 2006, you stated the draft version of the 2006-2009 technology plan was available as of November 30, 2005. The creation date came after the Form 470 (application number 133720000545997) posting date of October 14, 2005. Consequently, the Reviewer denied the funding requests because program rules require applicant's to have a written technology plan prior to posting the Form 470. Therefore, the appeal is denied.

State Contract

Deny
Abuse

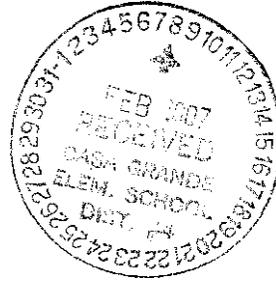

- Your Form 471 requested funding for products and/or services other than basic local and long distance telephone service. FCC Rules require applicants to certify that the entities receiving products and/or services other than basic telephone service are covered by an individual and/or higher-level technology plan that has been, or is in the process of being approved. 47 C.F.R. sec. 54.504(c)(1)(iv) and (v); See Schools and Libraries Universal Service. Services Ordered and Certification Form, OMB 3060-0806 Block 6, Item 26 (FCC Form 471).

If your appeal has been approved, but funding has been reduced or denied, you may appeal these decisions to either USAC or the FCC. For appeals that have been denied in full, partially approved, dismissed, or canceled; you may file an appeal with the FCC. You should refer to CC Docket No. 02-6 on the first page of your appeal to the FCC. Your appeal must be received or postmarked within 60 days of the date on this letter. Failure to meet this requirement will result in automatic dismissal of your appeal. If you are submitting your appeal via United States Postal Service, send to: FCC, Office of the Secretary, 445 12th Street SW, Washington, DC 20534. Further information and options for filing an appeal directly with the FCC can be found in the "Appeals Procedure" posted in the Reference Area of the SLD section of the USAC website or by contacting the Client Service Bureau. We strongly recommend that you use the electronic filing options.

We thank you for your continued support, patience and cooperation during the appeal process.

Funding Request Number(s): 1413868
Decision on Appeal: **Denied**
Explanation:

Handwritten notes: "Denied" and "Not out" with a checkmark.

- After thorough review of the appeal, the relevant facts, and documentation, it was determined that USAC's decision to deny the funding requests was correct. During the Selective Review, you were asked to provide the creation date for the year 2006-2009 technology plan submitted in response to the initial SRIR fax request.
