

I do not support the proposed merging of XM Satellite Radio Holdings and Sirius Satellite Radio. Recently I had a dispute with XM Radio regarding a decision they made about their programming. This lead me to cancel my service with XM Radio and open an account with Sirius. If these two companies merge, the consumer will no longer have any meaningful recourse if they feel that their service is lacking. As a satellite radio customer, I urge the FCC to oppose this merger. Thank you for your time.
