Dear Ms. Dortch:

I work from home in Virginia for a company in Minnesota. Wireless access was hard to get and is absolutely critical for me to continue in my current employment. Rural Americans deserve the same access to telecom services that are available in 3rd world countries—isn't that the purpose of the USF?

I urge the FCC to vote against the proposed cap on universal service support for wireless service.

Don't let countries like China continue to leap far ahead of rural American's!

Sincerely,

Rhonda Rose
