Washington, DC 20554

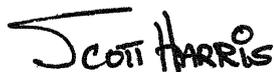

*Re: Revision of the Commission's Rules to Ensure Compatibility with Enhanced 911 Emergency Calling Systems, CC Docket No. 94-102; E911 Requirements for IP-Enabled Service Providers, WC Docket No. 05-196*

Dear Ms. Dortch:

On 21 May 2007, undersigned counsel for Microsoft Inc. had a brief conversation with Bruce Gottlieb, legal advisor to Commissioner Copps, regarding automatic location information (ALI). During this conversation I suggested that the Commission should avoid any ALI mandates on general purpose devices that are capable of accessing the Internet.

Please let me know if you have any questions about this filing.

Sincerely yours,

Scott Blake Harris
