

STOP GIVING AWAY THE PUBLIC'S AIRWAVES!

The government continues to ignore the very purpose of the FCC. Protect the public airwaves, stop giving everything away to corporate interests!

To restore America's leadership in high speed Internet services, the FCC MUST ENSURE that the upcoming auction sets aside at least 30 MHz of spectrum for open and non-discriminatory Internet access. This will guarantee that new entrants have the opportunity to enter the market in competition with incumbent providers.

Stop, no, REVERSE the terrible trend the FCC has been following of promoting more and more consolidation of ownership of the means of communication in this country.

This new wireless spectrum must be open and neutral so that America can build a better Internet for everyone.
