

YOU FUCKING CORRUPT BASTARDS! FUCK WITH NET NEUTRALITY AND IT WILL BITE YOU IN THE ASS. It is probably the only thing that will get people up off their asses to do something about the corruption in this government. The government must protect our airwaves from the same corporate gatekeepers that have stifled innovation and competition in Internet markets.

To restore America's leadership in high speed Internet services, the FCC must ensure that the upcoming auction sets aside at least 30 MHz of spectrum for open and non-discriminatory Internet access. This will guarantee that new entrants have the opportunity to enter the market in competition with incumbent providers.

It would be a big mistake to hand over these airwaves to the very same phone and cable companies that dominate the wireline market. We need more competition and innovation, not more of the same. This new wireless spectrum must be open and neutral so that America can build a better Internet for everyone.
