

Please do not block the Sirius-XM merger. I am a Sirius subscriber, but I have an "XM ready" radio in my car, and if the merger goes through, I will finally be able to get Sirius in my car without having to buy a second radio. You will not be doing anyone any favors by blocking the merger. Look at the terrestrial radio industry, or the media in general--those are the real monopolies. Rupert Murdoch owns most of them. Work on breaking up that monopoly to allow real diversity of opinion in the media instead of wasting time on this.
