Dear Ms. Dortch:

It is very difficult to write because I do not have any representatives representing me or my district. Renzi is being investigated by the FBI and will soon be indicted just like Rep. Jefferson was and he will be convicted. McCain is too busy thinking that he will be president but little does he know it that the only presidency he will have is the presidency of his toilet and Heil Hitler Kyl is a Nazi broker who adores terrorist Bush & Cheney and only represents them! So the only thing I need to say is get rid of the jackass running the FCC and hire someone who does not have ties with that other idiot Bush!

I understand that the FCC is considering placing a cap on the use of the Universal Service Fund (USF) for wireless service. I am writing to express my opposition to this unfair, arbitrary proposal. A wireless-only cap is clearly anti-competitive because it singles out wireless technology, which consumers are choosing more and more over landlines. We should be rewarding competition, not punishing it. What's more, rural Americans deserve the same access to telecom services that are available in the rest of the country—isn't that the purpose of the USF?

The FCC should consider what limiting the growth of wireless access will mean for rural America: wireless technology plays an ever-increasing role in economic growth and is a critical instrument in emergency situations, but if the recommended cap is implemented, many communities may never

realize these benefits. In a country that prides itself on equality, it seems hypocritical to restrict certain individuals' access to an essential tool simply because of their geographic location, especially when they have contributed for years to the USF along with everyone else.

I urge the FCC to vote against the proposed cap on universal service support for wireless service.

Of course that is if they have any intelligence what so ever!

Sincerely,

Tom Matarrese
