

As a stockholder, I would like to vehemently vote against the sat radio merger (takeover).

Our economy thrives on competition.

Simply put, after two companies squander their initial bankroll our government should not be put in the position to decide which company should prevail. The approval of this merger would feed all potential promises and future projections by representatives who would never have their consumer's best interest at heart.

Additionally, I believe this merge would absolutely create a monopoly. There would be only one company standing at the end of the day. One company having successfully destructed (devoured) it's sole competitor.

Thank you. NP
