Ref: Docket # 07-16

Dear Secretary Dortch:

The greatest inventions are tools which can be used by the broadest of audiences. Starting with the wheel, moving to the printing press, turning to the light bulb, and onto radio and television, inventions have connected people throughout the world. Now, the Internet is redefining the ways we do everything, from communication to research and everything in between.

However, exclusivity is still present and access to the Internet isn't as broad as it can be. There is no tool which can be utilized better by the general population than the Internet. Access needs to be granted and if Docket 07-16 is approved, it will be. This Docket, brought to you by M2Z Networks, will guarantee free Internet access to America. It's that simple.

Also, this Docket would establish and maintain a solid communication infrastructure among the departments of our public safety network. In every type of emergency,

Docket #07-16

from a car accident to a flood, different public safety officials need the ability to talk to each others. Often times, the current infrastructure is lacking. If this Docket is approved, communication in an emergency situation will no longer be a challenge.

The Town of Bel Air supports the concept of free Internet access for the general public and we ask that you give the Docket your careful consideration.

With many thanks,

Terence E. Hanley
Chair
Board of Town Commissioners

c: Chairman Kevin Martin
FCC Commissioners Copps, Adelstein, Tate, McDowell
Fred Campbell, Wireless Bureau Chief
The Honorable Barbara Mikulski
The Honorable Benjamin Cardin
The Honorable Dutch Ruppersberger
