

Please help improve the lives of rural Americans by protecting and expanding the Universal Service Fund (USF) for wireless providers. Wireless telecommunications is no longer a luxury in our society; it is a fundamental necessity for public health, safety and economic development.

My relatives who live in Eau Claire County in Wisconsin use their wireless phones in their area, and it has been convenient for my family to contact them anytime.

Capping the fund will shut the door on rural America. Less USF support for rural wireless networks will leave us with poor coverage, dropped calls and dangerous dead zones. The urban/rural technology gap will only widen.

Rural America deserves the same cell phone service as our big cities. I urge you to expand – not cap – the USF. Please don't leave us behind.

Thank you.
