

As a single mom living in a rural community, having cell phone coverage becomes a necessity for living and for emergencies. I urge you to not cap the funding on wireless network coverage. Having cell coverage on my land or when I travel with my daughter is something that should be available to me. It would provide me with a sense of security I currently do not have.

Rural America deserves the same cell phone service as our big cities. I urge you to expand – not cap – the USF. Please don't leave us behind.

Thank you.
