

I feel it is very important to protect and expand the Universal Service Fund (USF) for wireless providers. Many Americans, I am one of them, only use wireless phones and travel frequently into rural areas. It is important to me to have coverage in case of an emergency.

Capping the fund will be an extreme disadvantage to rural America. Less USF support for rural wireless networks will leave us with poor coverage, dropped calls, and dangerous dead zones. Rural America deserves the same cell phone service as our big cities. I urge you to expand, not cap, the USF.

Thank you.
