

Please help improve the lives of rural Nebraskans and other rural Americans by protecting and expanding the Universal Service Fund (USF) for wireless providers. Wireless telecommunications is no longer a luxury in our society; it is a fundamental necessity for public health, safety and economic development.

Capping the fund will shut the door on Nebraska and other rural America. Less USF support for rural wireless networks will leave us with poor coverage, dropped calls and dangerous dead zones. The urban/rural technology gap will only widen.

Rural America deserves the same cell phone service as our big cities. I urge you to expand – not cap – the USF. Please don't leave those of us in rural Nebraska behind.

Thank you.
