

Please help improve the lives of rural Americans by protecting and expanding the Universal Service Fund (USF) for wireless providers. Wireless telecommunications is no longer a luxury in our society; it is a fundamental necessity for public health, safety and economic development.

I live in Wisconsin and the majority of this state would be considered rural. Without the USF cell phone coverage in our state would be minimal. I need to feel safe while driving through the woods of Wisconsin knowing that I can make a call if something were to go wrong.

Rural America deserves the same cell phone service as our big cities. I urge you to expand – not cap – the USF. Please don't leave us behind.

Thank you.
