

Please help improve the lives of rural Americans by protecting and expanding the Universal Service Fund (USF) for wireless providers. Wireless telecommunications is no longer a luxury in our society; it is a fundamental necessity for public health, safety and economic development.

Capping the fund will shut the door on rural America. Less USF support for rural wireless networks will leave us with poor coverage, dropped calls and dangerous dead zones. The urban/rural technology gap will only widen.

Rural America deserves the same cell phone service as our big cities. I urge you to expand – not cap – the USF. Please don't leave us behind. I come from a small town in rural Wisconsin and I have family and friends that live in areas where the nearest grocery store is 30 minutes away. This directly affects people I know and care about.

Thank you.
