

Lobbyists have hurt our country enough...

Stop caving to them! When you hear idiotic statements like "the internet is all tubes" from that dingbat from Alaska, it makes me think that Congress is OUT OF TOUCH with the people for whom they work.

The public owns the airwaves, yet the corporate world has turned mass media into drivel. I believe there are too many ideologues who want the masses to remain uninformed for their own nefarious purposes. This is simply unacceptable in a democracy. We are turning into a propaganda state that is no different than Iran or China, and Congress doesn't seem to realize how angry people will be if there is no free and open internet.

Do the right thing for once and support internet freedom.
