

Stop internet control monopoly.

Allowing any private entity or group of entities to control which Internet communications are transmitted or which are transmitted rapidly is tantamount to controlling speech on our streets. Our speech should be free, not restricted.

Net Neutrality is essential to free speech, equal opportunity and economic innovation in America. Since the FCC removed this basic protection in 2005, the top executives of phone and cable companies have stated their intention to become the Internet's gatekeepers and to discriminate against Web sites that don't pay their added tolls.

This fundamental change would end the open Internet as we know it. It would damage my ability to connect with others, share information and participate in our 21st century democracy and economy. The FCC must ensure that broadband providers do not block, interfere with or discriminate against any lawful Internet traffic based on its ownership, source or destination.

Please protect our free speech. Protect Internet neutrality.

Yours truly,

Robert C. Talbott
