

I need Net Neutrality for my Business.

My business requires Net Neutrality to survive. If high speed access is available only to large companies capable of paying for premium bandwidth, the millions of small companies like mine that depend on the Net for reaching customers quickly will not be able to survive. Net Neutrality is essential for equal opportunity and economic innovation in America. Please ensure that broadband providers do not block, interfere with or discriminate against any lawful Internet traffic based on its ownership, source or destination.
