

Freedom to Learn - Share , Create Is Vital !

Net Neutrality is essential to free speech, equal opportunity and economic innovation in America. Since the FCC removed this basic protection in 2005, the top executives of phone and cable companies have stated their intention to become the Internet's gatekeepers and to discriminate against Web sites that don't pay their added tolls.

This fundamental change would end the open Internet as we know it. It would damage my ability to connect with others, share information and participate in our 21st century democracy and economy. The FCC must ensure that broadband providers do not block, interfere with or discriminate against any lawful Internet traffic based on its ownership, source or destination.

There has to be an open, unrestricted flow of ideas, information and business opportunity created by the internet. It is the chance to make friends in other countries, and learn about other cultures. This is a right that needs to belong to everyone, regardless of race, gender, political affiliation or religion. No special interest or agenda should have control over something this life changing and exciting !
