

RE: CG Docket No. 03-123

To: Chairman Martin;
Commissioners Adelstein, Copps, McDowell, and Tate

I am Deaf and I need Video Relay Service (VRS) in order to be able to place and receive phone calls with hearing individuals in my own native language – American Sign Language (ASL). I am writing to strongly urge the FCC to establish a new stable, reliable, and predictable VRS rate for the next three years. I know that a long-term stable rate will directly impact the VRS services that I rely upon.

Please set a fair VRS rate that encourages VRS providers to:

- Increase VRS access for all Deaf individuals through outreach programs
- Invest in the training and development of additional professional interpreters
- Improve VRS technology to provide reliable 24/7 and 911 services

Cutting the VRS rate would severely impact the quality of VRS, which I rely on for my communication needs.

Respectfully, David Sullivan

RE: CG Docket No. 03-123
Federal Communications Commission (FCC)
445 Twelfth Street SW
Washington, DC 20554

Dear Chairman Martin, Commissioners Adelstein, Copps, McDowell, and Tate:

I am a deaf person and I use Video Relay Service (VRS) to communicate. I was appalled to learn that the FCC staff is intent on drastically cutting the VRS rate, and effectively cutting VRS availability for the deaf. Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people.

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS and the local Deaf communities
- Provide service and technology improvements, such as the development of new videophone equipment, fulfilling the Americans with Disabilities Act (ADA) mandate of functionally equivalent telecommunications services

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

A handwritten signature in cursive script that reads "John A. Emswiler".

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS and the local Deaf communities
- Provide service and technology improvements, such as the development of new videophone equipment, fulfilling the Americans with Disabilities Act (ADA) mandate of functionally equivalent telecommunications services

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

Shelley Ennis

RE: CG Docket No. 03-123
Federal Communications Commission (FCC)
445 Twelfth Street SW
Washington, DC 20554

RECEIVED & INSPECTED
JUN 04 2007
FCC-MAILROOM

Dear Chairman Martin, Commissioners Adelstein, Copps, McDowell, and Tate:

I am a deaf person and I use Video Relay Service (VRS) to communicate. I was appalled to learn that the FCC staff is intent on drastically cutting the VRS rate, and effectively cutting VRS availability for the deaf. Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people.

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS and the local Deaf communities
- Provide service and technology improvements, such as the development of new videophone equipment, fulfilling the Americans with Disabilities Act (ADA) mandate of functionally equivalent telecommunications services

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

[Handwritten signature]

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS and the local Deaf communities
- Provide service and technology improvements, such as the development of new videophone equipment, fulfilling the Americans with Disabilities Act (ADA) mandate of functionally equivalent telecommunications services

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications services.

Sincerely,
