Re: WC Docket No. 07-38 – Notification of Oral Ex Parte Presentation

Dear Ms. Dortch:

On June 7, 2007, John Muleta, CEO of M2Z Networks, Inc., Dr. Kostas Liopiros, Raquel Noriega and the undersigned met with Bruce Gottlieb, Legal Advisor to Commissioner Michael J. Copps.

During the meeting, we discussed the importance of the FCC obtaining reliable broadband data in order to fulfill its duty to promote the availability advanced telecommunications services throughout the United States. To this end, M2Z discussed several options that the Commission could implement to modernize its data collection efforts. In addition, we discussed the status of M2Z's license application to provide National Broadband Radio Service in the 2155-2175 MHz band.

Please let me know if you have any other questions regarding this submission.

Sincerely,
