PS Docket No. 06-229; WT Docket Nos. 96-86, 06-150, 06-169

Dear Ms. Dortch:

On June 13, 2007, Christopher Guttman-McCabe, Vice President, Regulatory Affairs, Paul Garnett, Assistant Vice President, Regulatory Affairs, Brian Josef, Director, Regulatory Affairs, and David Redl, Counsel, Regulatory Affairs, CTIA – The Wireless Association®, met with Ian Dillner, Legal Advisor and Erika Olsen, Acting Legal Advisor to Chairman Kevin J. Martin, to highlight the growth and innovation in the mobile wireless broadband market.

In light of the explosive growth of mobile wireless broadband services, the high level of competition between mobile wireless broadband service offerings, and the unique needs of radio-based services, CTIA opposes regulation of mobile wireless broadband. Specifically, CTIA opposes the extension of open application access and *Carterfone*-like device attachment obligations to the competitive wireless industry. CTIA also underscored the benefits wireless consumers have garnered from carriers' ability to bundle subsidized handsets with service offerings.

Pursuant to Section 1.1206 of the Commission's rules, a copy of this letter and the presentation used at the meeting are being filed via ECFS with your office. Should you have any questions, please do not hesitate to contact the undersigned.

Sincerely,
