Dear FCC:

I am writing to voice my opinion and seek support of the Sirius Satellite Radio and XM Satellite Radion merger. The move makes economic sense for the consumer, as well as the companies involved. This is the only way that this ingenious technology can compete with other forms of entertainment media, such as traditional radio, Ipods, MP3 players and internet offerings. I am an avid Sirius listener, and look forward to the expanded offerings that would be included on the carrier (namely Major League Baseball). Please support and approve the merger between these two organizations.

Sincerely,

Matthew Tomko
