

I support the FreedomWorks mission of lower taxes, less government, and more freedom. That's why I am writing to urge the F.C.C. to not regulate the Internet with new net neutrality rules. I Support a Free and Open Internet!

These are price controls on the Internet, and they will mean less innovation, and less investment in the infrastructure critical for the deployment of broadband to all Americans. We should let the market work and watch the future of Internet innovation, competition and technological progress. Private business and free enterprise should determine the future of the Internet, not federal regulators and politicians in Washington, D.C.

Please do not give federal busy-bodies the opportunity to interfere with Internet innovation
