

Save free access to the Internet!

Net Neutrality is as important as freedom of speech. In fact it is the most current and vital expression of this essential right. Its full exercise should not be curtailed. The impact of the closing of the Internet as a vehicle of democracy would be a disaster for free enterprise, artistic expression, science and unimpeded communication so vital to our way of life. The FCC must ensure that broadband providers do not block, interfere with or discriminate against any lawful Internet traffic based on its ownership, source or destination.

Peace,

Bob Boldt
