WC Docket No. _____

SECTION 63.71 APPLICATION

Time Warner Cable Information Services (Texas), L.P. d/b/a Time Warner Cable (“Time Warner Cable”) hereby requests authority pursuant to Section 214(a) of the Communications Act, 47 U.S.C. § 214(a), and Section 63.71 of the Commission’s rules, 47 C.F.R. § 63.71, to discontinue the provision of circuit-switched domestic telecommunications services to customers in Garland, Texas.¹ Time Warner Cable filed a Section 63.71 application with the Commission on April 18, 2007 seeking authority to discontinue such services to other customers in Garland, Texas. The affected areas in this application are portions of Garland, Texas that were not covered in the April 18, 2007 application.

Time Warner Cable currently provides circuit-switched local exchange and toll services to residential customers. While Time Warner Cable intends to offer alternative packet-switched services, Time Warner Cable recognizes that some customers may switch to other providers.

The Applicant request that the Commission accept the instant application for streamlined treatment.

¹ The instant application applies only to circuit-switched services offered by Time Warner Cable. Nothing herein should be construed to imply that other services provided by Time Warner Cable or Time Warner Cable Inc. constitute “telecommunications services.”

Time Warner Cable provides the following information in support of this Application pursuant to Section 63.71 of the Commission's rules:

I. SECTION 63.71(A)(1)-(4) INFORMATION

A. Name and address of carrier:

Time Warner Cable Information Services (Texas), L.P. d/b/a Time Warner Cable
290 Harbor Drive
Stamford, CT 06902

B. Date of Planned Service Discontinuance:

Time Warner Cable plans to discontinue the above-referenced services on or after July 19, 2007.

C. Geographic Areas Affected:

Affected customers are located in Garland, Texas.

D. Brief description of type of service affected:

Time Warner Cable seeks authority to discontinue the provision of certain U.S. domestic circuit-switched local services in Garland, Texas. Approximately 4519 customers will be affected.

II. NOTIFICATION REQUIREMENTS

Time Warner Cable notified all affected customers of this proposed discontinuance by letter via U.S. mail on May 16, 2007. The customer notice letter is attached as *Exhibit A*. The notifications informed customers of the discontinuance of the circuit-switched service offering and informed them of the new, packet-switched offer, in addition to the other local service providers offering service in the area. Follow-up notices will be sent to customers before the final date for termination of this service. All notifications included the content required by Section 63.71(a).

Time Warner Cable certifies that, concurrent with the filing of this Application, it is submitting a copy of this Application to the Governor of the State of Texas, the Public Utility

Commission of Texas, and also to the Special Assistant for Telecommunications to the Secretary of Defense, as required by Section 63.71(a).

III. REGULATORY STATUS

Time Warner Cable is regulated as a non-dominant carrier with respect to the services that it seeks authority to discontinue.

IV. CONCLUSION

Neither the present nor future public convenience and necessity will be adversely affected by this proposed termination of service. Customers have been provided adequate notice, and the public has access to comparable domestic telecommunications services offered at competitive prices be it an alternative service from Time Warner Cable or another service provider.

For the reasons discussed above, Time Warner Cable respectfully requests, pursuant to Section 214(a) of the Act and Section 63.71 of the Commission's rules, that the Commission approve its Section 63.71 Application to discontinue certain services to customers in Garland, Texas.

Respectfully submitted,
