**Re: Supplement to May 24, 2007 Section 63.71 Application of
Verizon Long Distance and Verizon Enterprise Solutions,
WC Docket No. 07-120 and Comp. Pol. File No. 799.**

Dear Ms. Dortch:

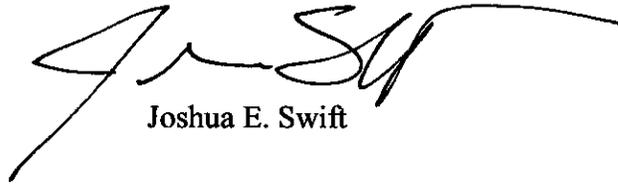

Verizon is supplementing the May 24, 2007 Section 63.71 Application of Verizon Long Distance and Verizon Enterprise Solutions (collectively, "Verizon"), which informed the Commission that Verizon is discontinuing an audio call conferencing service called "Conference Connections Service" on July 13, 2007. In its application, Verizon stated that it had provided written notice to affected customers via U.S. Mail on May 17, 2007 and also attached a copy of that customer notice letter. The Commission issued Public Notice of Verizon's Section 63.71 Application on June 12, 2007. *See Public Notice*, DA 07-2461 (June 12, 2007).

Verizon has been actively assisting its customers in making arrangements for appropriate alternate audio conferencing services. Many customers have already migrated to other audio conferencing services offered by Verizon or other carriers, but some have not. In order to provide these customers with additional time to make other service arrangements and thereby avoid any interruption of service, Verizon intends to delay discontinuation of the Conference Connections Service by approximately two weeks. The new discontinuation date is July 31, 2007.

The Commission has previously granted extensions of a carrier-planned service discontinuation dates and has not required a new round of customer notice letters or re-started the 30-day public notice period. *See, e.g., Section 63.71 Application of IP Communications*, DA 03-438 (Feb. 13, 2003); *Section 63.71 Application of ACC Communications*, DA 02-3392 (Dec. 9, 2002). The Commission should do the same here because all affected Verizon customers have received proper written notice for at least the minimum required period of time. Some customers will have received over 60 days' notice. Providing this additional time is no cause for new notice requirements and is in the public interest because the purpose of the two-week extension is to ensure that customers who have not migrated their service by July 13 will have additional time to find an alternate service and thereby avoid service interruption.

Should you have any questions about this application, please contact me at (703) 351-3039.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Swift", with a long horizontal flourish extending to the right.
