

## Censorship by Companies

As a librarian / cybrarian / educator I feel that any limits imposed upon the use of the Internet by anyone is Censorship! The Companies that wish to impose said limits might want to employ some of the students that will be effectively Censored by the imposition. Already, our students are filtered heavily due to many federal regulations, which are for their protection as young children. But, as they mature and seek knowledge, students should be able to access information for research purposes without restrictions by some Company because they want MONEY! HOW SAD A COUNTRY WE LIVE IN TO ALLOW CORPORATIONS TO DICTATE OUR ACCESS TO KNOWLEDGE!!!!

Net Neutrality is essential to free speech, equal opportunity and economic innovation in America. Since the FCC removed this basic protection in 2005, the top executives of phone and cable companies have stated their intention to become the Internet's gatekeepers and to discriminate against Web sites that don't pay their added tolls.

This fundamental change would end the open Internet as we know it. It would damage my ability to connect with others, share information and participate in our 21st century democracy and economy. The FCC must ensure that broadband providers do not block, interfere with or discriminate against any lawful Internet traffic based on its ownership, source or destination.
