Re: Notices of Network Change Under Rule 51.329(a)
CC Docket No. 96-98

Dear Ms. Dortch:

Pursuant to the public notification requirements in §51.325 – §51.335 of the Commission's rules, AT&T Southeast hereby submits a Public Notice of Network Change. A description of the network change is provided below:

| Number | Type of Change Planned | Location of Change |
|---------------|---|---------------------------|
| 20070058 | Replacing Copper Facilities with Fiber Optic Cable and Digital Loop Carrier Systems | Greensboro, Alabama |

This notice is also available at:

http://www.interconnection.bellsouth.com/alerts_and_notifications

If you have any questions, please contact me at (202) 457-2047.

Sincerely,

/s/ Steven D. Long

Notice of Network Change – Greensboro, Alabama
Replacing Copper Feeder Facilities with Fiber and Digital Loop Carrier Systems

Carrier
AT&T Alabama
675 West Peachtree Street NE
Atlanta, Georgia 30375

Date Changes are to Occur: First Quarter 2008

Location of Changes: Greensboro, Alabama (along Highway 61 East)

Description of Change Planned: Copper Feeder Facilities will be replaced with Fiber Optic cable and Digital Loop Carrier (DLC) systems.

Description of Reasonably Foreseeable Impact of the Planned Change: After this work is completed, metallic facilities from the Central Office to the affected area will no longer be available. Unbundled loops that are defined as compatible with Digital Loop Carrier (DLC), e.g., those defined to transport Plain Old Telephone Services (POTS)-grade service, will be transferred to the new DLC system. Competitive Local Exchange Carrier (CLEC) employing unbundled loops that are defined to require metallic facilities, e.g., Digital Subscriber Line (DSL) or line sharing circuits will be notified individually. This notification is intended to allow the affected CLEC to convert the circuit to one compatible with DLC.

It should be noted that if a CLEC obtains an unbundled loop that has been defined to transport POTS-grade service, but then utilizes the POTS-grade loop to provide DSL service, AT&T will have no knowledge of the presence of DSL. In such a case, AT&T has no basis to notify the carrier and the ability of the CLEC to provide DSL service may be affected.

Contact: Technical questions Tommy Vaught, Loop Capacity Manager
relating to this change 10494 Highway 80 E
should be directed to: Montgomery, AL 36117
334-244-6049

All other questions or concerns regarding this change should be referred to your BellSouth account team representative, the Interexchange Carrier Service Center (ICSC) or the Local Interconnection Service Center (LISC). Payphone Service Providers should contact the following numbers with questions or concerns:
