In the Miscellaneous External and Fraudulent/Harassment Call categories, you will find several complaints that we believe to be associated with fraudulent activity over Internet Relay. However, Hamilton believes that it is important for the Commission to have this information. Hamilton continues to implement protocols specifically designed to prevent calls originating from an international IP address from accessing the relay, and to take other measures to counter Internet Relay fraud in a manner consistent with the guidance provided by the Commission in the Public Notice dated June 18, 2004. *See FCC Reminds Public of Requirements Regarding Internet Relay Service and Issues Alert*, Public Notice, DA 04-1738 (rel. June 18, 2004).

The participating states include all interstate and intrastate CapTel complaints on their reports submitted to the Commission.

Finally, Hamilton is separately filing, on a confidential basis, a summary including the total number of interstate calls by type of TRS.
