Re: CG Docket 03-123; Consumer Complaint Log Summary Concerning
Telecommunications Relay Services ("TRS") for the Period June 1, 2006 to
May 31, 2007

Dear Ms. Dortch:

In accordance with 47 C.F.R. Section 64.604(c)(1), the State of Hawaii Public Utilities Commission ("PUC") hereby transmits the original and four (4) copies of its TRS Consumer Complaint Log Summary ("Summary") for the 12-month period ending May 31, 2007. An electronic copy of the Summary is also provided on the enclosed CD-ROM.

Consistent with the Federal Communications Commission's ("FCC") Public Notice (DA 07-2762, released June 22, 2007), the Summary includes the number of complaints received that allege a violation of the federal TRS mandatory minimum standards, the date of the complaint, the nature of the complaint, the date of its resolution and an explanation of the resolution. During the period of June 1, 2006 through May 31, 2007, a total of eleven (11) complaints were logged regarding the provision of TRS in Hawaii.

The total number of interstate relay calls by type of TRS, which the FCC also requested in its Public Notice, will be submitted separately by Sprint, Hawaii's current TRS provider. It is our understanding that Sprint will provide this information to the FCC under seal since it considers call volume information to be proprietary and confidential.

Complaint Tracking for HI (06/01/2006-05/31/2007). Total Customer Contacts: 11

Nature of Complaint	Date of Resolution	Explanation of Resolution
Customer stated that her voice cannot be heard when making Hawaii relay calls. People tell her that her voice fades in and out on the call and can barely be heard. Customer says this has been a problem for over two years. Island Skills people and account manager have been working with her equipment and have decided it is a relay issue. Internal Update Performed	Resolution is pending and will be completed within the required 180 days.	Apologized for the problem and said that a complaint would be sent. Ticket turned in. Customer would like a call back. On 4/28/07, e-mailed customer to inform that technicians were working on the platform. RPM will let the customer know when it is fixed.
TTY customer said the CA dialed out the number before he gave the GA. He also said he had garbling on a previous call. Customer requested follow up by phone	04/25/07	Apologized and told the customer a supervisor would follow up with the supervisor on duty followed up with CA, who said that as the "GA" pressed the COMP and then the TTY user erased the GA to contact the customer on three different attempts and was unsuccessful by phone.
TTY customer was unhappy because the outbound person wouldn't hang up when the call was over and agents do something wrong on an ongoing basis. He mentioned he is a member of the Sprint Advisory Board HI.	04/22/07	Customer was informed that the agent voiced correctly GA SK as "The person is ready to hang up." It is then the choice of the outbound caller to hang up, and that SK or SKSK is voiced as "The person is ready to hang up." When the agent receives indication that the inbound caller has disconnected, the agent hangs up, the agent voices, "The person hung up." Sometimes the customer thinks its impolite to hang up first. Also some call centers do not hang up until the caller hangs up first. The caller thanked me for bringing this up for discussion at the advisory meeting. He requested that the issue be forwarded to the Account Manager, but did not request follow up.
Customer said agent hung up on her before she could ask for another call.	03/22/07	Apologized for inconvenience. Supervisor went over proper disconnect procedures with operator.
VCO customer continued to complain that the people that she calls can hear her sometimes, and not at all at other times. Has filed complaints in the past and heard that the issue was going to be fixed, but is still having problems and would like to find out when this issue will be resolved	02/16/07	Apologized to customer and assured her that the issue is being worked on. Customer still requested follow up from account manager. The Account Manager contacted the customer and matter was resolved.
VCO customer complained people cannot hear her on calls. She uses relay on a daily basis and sometimes has had to hold for hours. She has many complaints against the system, not the operators. Speaking on behalf of many VCO users, she wants results. This is the third complaint filed and no one has returned her call. Follow up requested.	01/24/07	Account Manager met with customer and developed resolutions. Customer is satisfied.
VCO customer's sister, who is hearing and uses relay everyday, was not able to hear her at all. This problem never happened before until now. Operator was able to hear both VCO and voice just fine. Follow up requested with VCO customer.	01/15/07	Account Manager had a meeting with VCO customer and apologized for Customer's frustration. Worked on a few solutions and agreed to test on handset. Tested calls and the customer was satisfied.
Customer has had problems from day one with VCO phone connections with relay, going back for years, and stated that it has gotten worse. She got new phones and even contacted her local phone company, but the conclusion is that it is a relay issue. The problem is that the people that she calls cannot hear what she says, and she ends up having to hang up. This also sometimes happens with operators. In addition, during the evenings, she has problems connecting to an operator and sometimes the call is immediately disconnected. Requested follow up. Internal Update Performed.	01/15/07	Account Manager met with VCO customer and worked on the relay issue. VCO customer tested calls and was satisfied.

<p>Technical - General</p>	<p>07/11/06</p>	<p>Apologized for incidence, thanked customer for the feedback and that information would be shared with appropriate captioning services.</p>
<p>Customer tried calling relay but it was busy. He complained that the Sprint Account Manager for Hawaii promised the wait would only be a few seconds, which didn't happen. Apologized to the customer, who did not request a follow up.</p>	<p>07/26/06</p>	<p>We experienced additional call volume during this time frame. We monitor answer time and will make adjustments as needed.</p>
<p>Customer stated that operator took a while dialing out the call. Operator also asked caller if he still wanted to wait after phone rang a couple times.</p>	<p>10/11/06</p>	<p>Apologized to caller; no follow up requested. Account Manager the supervisor at call center for resolution. Supervisor went over procedures with operator.</p>
