

SAVE US from drowning in corporations!!!!!!!!!!!!

I agree that Net Neutrality is essential to free speech, equal opportunity and economic innovation in America.

We are already swamped with corporate oppression in all facets of our daily life. The only thing that has kept me hanging on in America is the Internet. If this last bastion of free speech and equality is taken away from us I believe that will be the complete end of the United States of America.

It's an absolute crime against our country, which is supposed to be governed by the people, to even consider that you would put all this information into the hands of a few multitrillion dollar companies to dole out as they see fit. SHAME ON YOU!!!!!!!!!!!!!!!!!!!!!!!!!!!!
