

Stop Net Neutrality

WHERE am I going to get the real news? FOX online? CNN online? I gave up on corporate/propaganda TV four years ago, now you are going to let big business get an unshakable hold on the internet!? This is a terrible idea.

Net Neutrality allows roadblocks to be imposed on any competition to these hulking, impersonal, cash machines AND lets these big businesses choose when and where to put them!

You are allowing the innovation and inspiration to be SQUEEZED OUT of this media NOT allowing it to prosper.
