Washington, DC 20554

Dear FCC:

I fully support the merger of Sirius Satellite Radio and XM Radio. I urge you to support this merger in order to promote diversity and a reduction in prices for the consumer. For instances, in Southern New Jersey the only station that plays latin music for my wife and her family to listen to is Satellite Radio. With this merger programming for miniorities can be expanded. Further, the merger of these companies will allow for lower prices for the consumer.

Further, there is definately competition between FREE radio and Satellite radio, as Satellite radio is competing with a FREE service. Also, with such products as the IPHONE Satellite radio deals with competition from a number of different venues and corporations such as the IPODS, internet radio and new cells phones being introduced everyday which have music capabilities. Therefore, I urge you to support this merger in order to benefit the consumers. Thank you.

Sincerely,

Dustin Hoffman
