

Net Neutrality IS A MUST! ! Stop the Kiss Up to \$\$

Net Neutrality is a MUST, you say there is no need, all we need to see is the greed (\$\$\$) of big business like MICROSOFT toward LINUX, and the same WILL HAPPEN in kind from the Telco's and the NET, equal opportunity and economic innovation in America WILL be at risk. Since the FCC removed this basic protection in 2005, the top executives of phone and cable companies HAVE stated their intention to become the Internet's gatekeepers and to discriminate against Web sites that don't pay their added tolls. (JUST like MICROSOFT desire to control LINUX)!!

This fundamental change would end the open Internet as we know it. It would damage OUR Nation's ability to connect with others (Currently we are the Underdog compared to some other countries!

The FCC must ensure that broadband providers do not block, interfere with or discriminate against any lawful Internet traffic based on its ownership, source or destination.

If you don't then YOU WILL TO BE BLAMED WHEN IT DOES HAPPEN! All for the sake of GREED of NOW.
