

Keep the Internet Neutral!

We own a small business and are working with another small business in our town to develop their web site. We want to protect the ability of small businesses to compete on a level playing field.

As you know, one of the wonderful characteristics of the present internet is that a small business with a quality product can, in fact, grow and add American jobs and thus add to U.S. prosperity.

We appreciate your consideration of our request that you keep the internet neutral!

Thanks!

Tim Stuart
