

It's free and uncensored - unlike your mass media

I watch news on the internet sites then I watch the Republican-owned (tell me it's not!)and operated and censored media (TV and Newspaper). There is no comparison with what's available to the masses. For 6+ years - Paris Hilton, the slow police chases in LA, Anna Nichole Smith, white girls missing, 3 days of weather coverage for a storm - for hours and hours and nothing - or 30 seconds about:

1. US attorney scandal, 2. Libby commutation covering up Plame outing, 3. the many Friday resignations from of Bush Admin, 4. Rove's influence on our politics, 5. Bush's non-attendance in Texas ANG, 6. Bush's involvement with Abramoff, etc., etc., etc.,. If it's not complimentary about this administration, it's covered over or spun. Period! Fox News is not balanced - it's All Republican - All The Time!

Keith Olbermann has the only TV news programming that actually reports some factual Bush News.

Net Neutrality is essential to free speech, equal opportunity and economic innovation in America. Since the FCC removed this basic protection in 2005, the top executives of phone and cable companies have stated their intention to become the Internet's gatekeepers and to discriminate against Web sites that don't pay their added tolls.

This fundamental change would end the open Internet as we know it. It would damage my ability to connect with others, share information and participate in our 21st century democracy and economy. The FCC must ensure that broadband providers do not block, interfere with or discriminate against any lawful Internet traffic based on its ownership, source or destination.
