I'm tired of big corporations and companies telling us what to do what to watch, what to listen how to think and what to talk about!!!!

It is not about money as they want us to believe, they have all the money they would ever need! It is about CONTROL!!! And I'm against it!!!

It is time to stand up and say NO!!! to those who seek power and control of our minds! I'm FREE to do anything, and go anywhere! I'm FREE to get any information I desire! And nobody, NOBODY! can or will make me do otherwise! I'm for freedom of information!

I'm FREE!!!
