

END CORPORATE KLEPTOMANIA - WE THE PEOPLE INSIST!

Net Neutrality is essential to free speech, equal opportunity and economic innovation in America. Since the FCC removed this basic protection in 2005, the top executives of phone and cable companies have stated their intention to become the Internet's gatekeepers and to discriminate against Web sites that don't pay their added tolls.

This fundamental change would end the open Internet as we know it. It would damage my ability to connect with others, share information and participate in our 21st century democracy and economy. The FCC must ensure that broadband providers do not block, interfere with or discriminate against any lawful Internet traffic based on its ownership, source or destination.

The FCC must NOT become an accomplice to the KLEPTOMANIA that has so gripped these unimaginative lesser lights attempting to set themselves up as the "owners" of the internet. We the people are watching and we SHALL take action. We are sick and tired of theft and subterfuge replacing the regulation we expect from the FCC. This is not an issue of conservative / liberal or Republican / Democrat, it is American versus un-American, good versus evil. Listen up children, we shall watch you carefully.

- Vince
