FCC
Federal Communications Commission
445 12th Street, SW Room TW-B204
Washington, DC 20554

Dear FCC:

I support the merger. When two companies fiercely compete each other, there is room for the needs of consumers to go unnoticed. I myself would like to have BOTH services and choices, but choose not to pay for TWO subscriptions. I am not affiliated with either company, I am simply a consumer. Consumers are supposed to have CHOICES, but in this current situation we have only LIMITED Choice with our service. If the FCC grants the combining of the licenses, consumers would at last have REAL choices on what we wish to buy. Opposers who state that price hikes and consumers being forced to buy is unfounded and certainly inflated at the political ramblings of the groups in support of local radio! If I cared for local radio and the idiotic ramblings of the local advertisers and DJs as well as THEIR point of view and what THEY feel is "Socially Acceptable" behavior. Local stations are a waste of my time and intelligence. The last local station I listened to spent 20 min of my drive to work making prank phone calls on local businesses, wasting businessowners valuable time. Shortly thereafter I purchased a sat. radio subscription. I understand what the FCC intended in 1997 by stating that the issued licenses were never ment to be combined, but that was almost 10 years ago and the landscape has changed. If the two companies could combine and provide better service and choices then they are able to currently, why would there be a issue? Why wouldn't the FCC stand for growth and improvement and allow this merger?

Consumers always have a right to choose "To buy or Not to buy" I want to

buy, I don't HAVE to buy, and I want choices.

Sincerely,

Dawn M Cook
