

Stop selling every part of US to special interests

I completely agree with the following prepared statement. Additionally, I'm tired of Congress selling everything they can get their hands on to "special interest" groups. You are hired to serve the interest of the American people - all of us for the betterment of all of us. STOP THE SPECIAL INTEREST SELLOUT - you owe it to the average American citizen! Citizen Ken Chalfant is watching and votes.

Net Neutrality is essential to free speech, equal opportunity and economic innovation in America. Since the FCC removed this basic protection in 2005, the top executives of phone and cable companies have stated their intention to become the Internet's gatekeepers and to discriminate against Web sites that don't pay their added tolls.

This fundamental change would end the open Internet as we know it. It would damage my ability to connect with others, share information and participate in our 21st century democracy and economy. The FCC must ensure that broadband providers do not block, interfere with or discriminate against any lawful Internet traffic based on its ownership, source or destination.
