

KEEP NET NEUTRALITY!!!!!!

For most people, including me, the internet is how we communicate with other people, family members and friends. It's how people find information, educate themselves, look for jobs, housing, people, etc. why would anybody want to take that away from anyone? it already costs so much just to survive why add another cost on top of that? KEEP NET NEUTRALITY!!! It's not just another cost for me but for you and everyone else as well!
