

when do citizens count as much as lobbyists?

Enough is enough. I'm SO tired of lobbyists influencing government agencies and the Congress. This weekend I visited Monticello, home of Thomas Jefferson who penned the Declaration of Independence. Since you're more concerned with providing opportunities for American mega-corporations, you may not be aware of him. He believed that the key to a successful democracy was an informed populace.

And today, that means unfettered access to the Internet. Americans don't read papers or watch the news anymore, they access the Internet. The FCC must ensure that broadband providers do not block, interfere with or discriminate against any lawful Internet traffic based on its ownership, source or destination. To do so will only hasten the end to our young country, one which that genius Thomas Jefferson knew would need an educated populace to survive.

What's your choice: big business or American citizens. It's that simple.
