

Are You Crazy?

Have you ever heard the word "freedom" associated with the United States of America? Goodbye, freedom, if our communication system is SOLD. Sold! Adieu, freedom of speech, adios, small business, bye-bye democracy, and so long, any fragment of respect remaining from other countries. This would be the frosting on the cake of corporate ownership of our country. We might as well pack up go return to the lands of our ancestors, who came here for freedom and opportunity.
